

PANDROL

CORPORATE SOCIAL RESPONSIBILITY

All Pandrol Track Systems operating companies are working towards compliance with our group-wide corporate social responsibility (CSR) policy.

At board level, we frequently review our policy against appropriate codes of governance and international standards, such as those of the UN, the International Labour Organisation (ILO), and the Organisation for Economic Cooperation and Development (OECD).

PTS Group companies audit their own compliance, work to fill gaps in CSR activities, and take action against unethical behaviour.

RESPECTFUL, SUSTAINABLE WORKPLACES

Guided by OECD Guidelines for Multinational Enterprises, our workplace policies aim to foster openness, sustainability and respect for employee rights.

- **Management talent:** We encourage hiring from within, assess candidates in accordance with local equal opportunities laws, and train employees to ISO 9001 standards
- **Looking out for employees:** We meet local requirements on the working environment and practices, recognise trade unions, and protect employees' personal data
- **Prioritising health and safety:** PTS companies meet local requirements, regularly audit site safety, provide trained first aiders, and protect visitors' safety
- **Developing employees:** We identify and meet training needs in accordance with the ISO 9001 quality system. We consider all employee training and education requests to gain role-related qualifications.
- **Encouraging diversity:** Diversity is monitored and encouraged in accordance with the Pandrol HR policy on Dignity at Work
